THE AMERICAN REVIEW OF TUBERCULOSIS

OFFICIAL JOURNAL OF
THE AMERICAN TRUDEAU SOCIETY
Medical Section of National Tuberculosis Association

EDITOR
WALSH MCDERMOTT
New York, N. Y

CONSULTING EDITOR
ESMOND R. LONG
Philadelphia, Pa.

EDITOR OF ABSTRACTS
LAWRENCE B. HOBSON
New York, N. Y.

EDITORIAL BOARD

JOHN D. ADCOCK, Ann Arbor, Mich.
WILLIAM H. FELDMAN, Rochester, Minn.
BYRON F. FRANCIS, Seattle, Wash.
MAX B. LURIE, Philadelphia, Pa.
DONALD L. PAULSON, Dallas, Tex.
PHILIP E. SARTWELL, Baltimore, Md.
JOHN D. STEELE, Milwaukee, Wis.
WILLIAM B. TUCKER, Minneapolis, Minn.
ARTHUR J. VORWALD, Saranac Lake, N. Y.

VOLUME 67
JANUARY–JUNE, 1953

PUBLISHED MONTHLY
AT MT. ROYAL AND GUILFORD AVENUES, BALTIMORE 2, MD.
BY THE NATIONAL TUBERCULOSIS ASSOCIATION

CONTENTS: ORIGINAL ARTICLES

NUMBER 1, JANUARY, 1953

Extrapleural Pneumothorax. JOHN W. STRIEDER AND EDWARD A. GAENSLER 3

Intermediary Report of 102 Streptomycin-Protected Pulmonary Resections JAMES D. MURPHY AND BARNEY B. BECKER 22

Bronchiectasis: A Comparative Study. JOSEPH GORDON AND PHILIP C. PRATT 29

Transient Undiagnosed Intrathoracic Lymphadenopathy in Apparently Healthy Persons. AARON D. CHAVES AND HANS ABELES 45

The Cytology of the Tubercle Bacillus with Reference to Mitochondria and Nuclei. LOREN C. WINTERSCHEID AND STUART MUDD 59

Tuberculosis Control in Hospital Personnel. A Review. H. MCLEOD RIGGINS 74

Tuberculosis Among Jews. Mortality and Morbidity Among Different Jewish Ethnic Groups. Tuberculosis Among Yemenite Jews. Etiologic Factors. JOSEPH RAKOWER 85

Horner's Syndrome Complicating Surgery for Pulmonary Tuberculosis. A Review of Five Cases. EDWARD J. WELCH 91

Notes:

Effect of a Minimal Dose of Cortisone Combined with a Subeffective Dose of Dihydrostreptomycin on Experimental Guinea Pig Tuberculosis. NORMAN MOLOMUT AND DAVID M. SPAIN 101

A Note on the pH of Tuberculous Empyema. IRVING N. WOLFSON AND RICHARD J. FEINBERG 103

Incidence of Bacterial Resistance Encountered with Tuberculosis Chemotherapy Regimens Employing Isoniazid Alone and in Combination with Intermittent Streptomycin. WILLIAM E. DYE, HELEN P. LYNCH, AND ATLANTA G. BREES 106

Control Study of Comparative Efficacy of Isoniazid, Streptomycin-Isoniazid, and Streptomycin—Para-Aminosalicylic Acid in Pulmonary Tuberculosis Therapy: II. Report on Twenty-Week Observations on 390 Patients with Streptomycin-Susceptible Infections. FRANK W. MOUNT AND SHIRLEY H. FEREBEE 108

American Trudeau Society:

Award of the Trudeau Medal for 1952 114

Notes 120

Necrology 122

Abstracts 1

NUMBER 2, FEBRUARY, 1953

Epidemiology of Tuberculosis. GAYLORD W. ANDERSON 123

Tuberculosis in the Island of Puerto Rico. J. RODRÍGUEZ PASTOR AND JOSÉ L. JANER 132

Cardiopulmonary Function in the Pulmonary Form of Boeck's Sarcoid and Its Modification by Cortisone Therapy. JOHN H. MCCLEMENT, ATTILIO D. RENZETTI, AARON HIMMELSTEIN, AND ANDRE COURNAND 154

The Effect of Streptomycin Therapy on the Bronchocavitary Junction and Its Relation to Cavity Healing. OSCAR AUERBACH, HARRY L. KATZ, AND MAURICE J. SMALL 173

The Effect of Corticotropin (ACTH), Dihydrostreptomycin, and Corticotropin-Dihydrostreptomycin on Experimental Bovine Tuberculosis in the Rabbit. JAMES M. BACOS AND DAVID T. SMITH 201

Withdrawal Symptoms upon Discontinuance of Iproniazid and Isoniazid Therapy. IRVING J. SELIKOFF, EDWARD H. ROBITZEK, AND GEORGE G. ORNSTEIN 212

Lethal and Cytologic Effects of Lysozyme on Tubercle Bacilli. QUENTIN N. MYRVIK, RUSSELL S. WEISER, AND HILDA D. AGAR 217

Collapse Therapy for Tuberculous Psychotic Patients. GEORGE N. J. SOMMER, JR., ABRAHAM M. BALTER, HAROLD S. HATCH, AND HAROLD J. MUENDEL 232

Case Report:

Hepatic Tuberculosis in a Patient with Sickle-Cell Anemia Who Died of Fatal Post-Transfusion Hepatitis. EDWARD R. CHRISTIAN 247

Notes:

Prothrombin Time During Para-Aminosalicylic Acid Therapy. Two Thousand Determinations in 400 Patients. LEMBIT NORVIIT AND BO CARSTENSEN 258

Sensitivity of *Actinomycetales* to Isonicotinic Acid Hydrazide, Compared to Other Synthetic and Antibiotic Antituberculosis Agents. SELMAN A. WAKSMAN AND HUBERT A. LECHEVALIER 261

The Nature of the Virulence of Human and Bovine Types of Tubercle Bacilli for the Rabbit. MAX B. LURIE 265

Correspondence: Lung Immobilizer Therapy in Pulmonary Tuberculosis. JOHN D. STEELE AND GEORGE C. OWEN 267

American Trudeau Society:

Resection of Residual Necrotic Lesions. A Report of the Committee on Therapy 268

The Current Status of Isoniazid in the Treatment of Tuberculosis. A Report of the Committee on Therapy 269

Notes 270

Books 272

Abstracts 29

NUMBER 3, MARCH, 1953

Trend of Tuberculosis Morbidity. JULIUS KATZ 279

The Response to Antimicrobial Therapy of Anergic and Partially Anergic Tuberculous Patients: I. Changes in the Tuberculin Sensitivity of Individual Patients. C. EUGENE WOODRUFF, WILBUR J. STEININGER, RUBY G. KELLY, AND HERBERT KREISEL 286

The Response to Antimicrobial Therapy of Anergic and Partially Anergic Tuberculous Patients: II. The Prolongation of Life. Herbert Kreisel, Wilbur J. Steininger, W. Leonard Howard, Edwin E. Mueller, and C. Eugene Woodruff 292
Electrophoretic and Chemical Serum Protein Fractions in Pulmonary Tuberculosis. Bruno W. Volk, Abraham Saifer, Linden E. Johnson, and Irwin Oreskes 299
The Bactericidal Action of Isoniazid, Streptomycin, and Terramycin on Extracellular and Intracellular Tubercle Bacilli. G. B. Mackaness and N. Smith 322
Irradiated Antituberculosis Vaccine, Including Comparison with BCG in Experimentally Infected Guinea Pigs. Joseph B. Seagle, Alfred G. Karlson, and William H. Feldman 341
Chemotherapy of Experimental Tuberculosis. VI. Derivatives of Isoniazid. Jack Bernstein, William P. Jambor, W. A. Lott, Felix Pansy, Bernard A. Steinberg, and Harry L. Yale 351
Chemotherapy of Experimental Tuberculosis. VII. Heterocyclic Acid Hydrazides and Derivatives. Jack Bernstein, William P. Jambor, W. A. Lott, Felix Pansy, Bernard A. Steinberg, and Harry L. Yale 366
Case Reports:
Histoplasmosis: Report of Two Cases. Robert Charr 376
Peliosis Hepatis. Report of Two Cases. J. M. Young 385
Notes:
Lack of Significant *in Vitro* Sensitivity of *Mycobacterium Tuberculosis* to Pyrazinamide on Three Different Solid Media. Maurice S. Tarshis and William A. Weed, Jr 391
American Trudeau Society:
Notes 396
Obituaries 398
Abstracts 49

Number 4, April, 1953

Late Results of Modified Bed Rest in Active Uncomplicated Minimal Pulmonary Tuberculosis. Roger S. Mitchell 401
Late Results of the Treatment of Primary Tuberculous Pleurisy with Effusion with Modified Bed Rest. Roger S. Mitchell 421
The Personality Characteristics of Tuberculous Patients Who Leave the Tuberculosis Hospital Against Medical Advice. Mildred E. Rorabaugh and George Guthrie 432
The Role of the Lymphatics in the Development of Bronchogenic Tuberculosis. Philip Schwartz 440
Pulmonary Histoplasmosis. A Study of Twenty-two Cases with Identification of *H. Capsulatum* in Resected Lesions. Thomas F. Puckett 453
Coexisting Pulmonary Coccidioidomycosis and Tuberculosis. Hans F. Stein 477

Mode of Action of Isoniazid. W. R. Barclay, R. H. Ebert, and D. Koch-Weser ... 490
Clinical Evaluation of the Hemagglutination Reaction. A. Gerson Hollander, Martin Frobisher, Jr., and Katherine Kalisch ... 497
The Influence of Various Sources of Nitrogen on the Activity of Antimicrobial Drugs. II. *Mycobacterium Avium.* Eugene D. Weinberg ... 503
Case Reports:
Thrombocytopenic Purpura in Association with Primary Bronchogenic Carcinoma. Ross B. Cone and H. R. Nayer ... 509
Tuberculous Pleurisy and Osteogenesis Imperfecta. William A. Werner ... 513
Editorial: A Share in the Task Ahead. Alan Gregg ... 517
Notes:
BCG Vaccination in the Republic of Panama. Teresina P. de Pinzon 522
Formation of Tuberculin by Washed Tubercle Bacilli in Citrate Solution. Ryo Ito ... 526
Penicillin as a Decontaminant in Cultures for Tubercle Bacilli from Undigested Sputum. Lucille Sommermeyer and Martin Frobisher, Jr. ... 530
The Effect of Isoniazid on the Tuberculin Test. Leo H. Criep and Macy I. Levine ... 535
The Effect of Isoniazid and Iproniazid on *Coccidioides Immitis.* Morris Tager ... 538
Control Study of Comparative Efficacy of Isoniazid, Streptomycin-Isoniazid, and Streptomycin—Para-Aminosalicylic Acid in Pulmonary Tuberculosis. III. Report on Twenty-eight-Week Observations on 649 Patients with Streptomycin-Susceptible Infections. Frank W. Mount and Shirley H. Ferebee ... 539
Correspondence: Effect of Isoniazid on Diabetes. Sidney J. Shipman and H. Clare Shepardson; **Nucleinemia.** K. Aoyama ... 544
Books ... 547
American Trudeau Society:
Notes ... 550
Obituaries ... 551
Abstracts ... 73

Number 5, May, 1953

The Effect of Streptomycin on the Emergence of Bacterial Resistance to Isoniazid. A United States Public Health Service Cooperative Investigation ... 553
Pulmonary Function in Pregnancy. I. Serial Observations in Normal Women. David W. Cugell, N. Robert Frank, Edward A. Gaensler, and Theodore L. Badger ... 568
A Comparative Study of the Effectiveness of Laryngeal Swabs and Gastric Aspiration for the Detection of *M. Tuberculosis* **in Chest Clinic Patients.** Aaron D. Chaves, L. R. Peizer, and D. Widelock ... 598

A Roentgenographic Classification of Tuberculous Lesions of the Kidney. JOHN K. LATTIMER ... 601
Tuberculous Meningitis in the Adult. A Review of Sixty Consecutive Streptomycin-Treated Cases. EDGAR ALSOP RILEY ... 613
A Toxic Lipid Component of the Tubercle Bacillus ("Cord Factor"). I. Isolation from Petroleum Ether Extracts of Young Bacterial Cultures. HUBERT BLOCH, E. SORKIN, AND H. ERLENMEYER ... 629
Further Observations on the Pharmacology of Isoniazid. BERNARD RUBIN AND JOHN C. BURKE ... 644
The Long-Term Toxicity and Metabolic Effects of Isoniazid in Adults. EDWARD W. MULLIN, KENNETH W. WRIGHT, AND PAUL A. BUNN ... 652
The Specificity of the Hemagglutinin Adsorption Technique in the Serologic Study of Tuberculosis. WILLIAM L. GABY, JOYCE BLACK, AND AMEDEO BONDI, JR. ... 657
Notes:
Tuberculin Patch Test Survey Among School-Age Children in Liberia. HILDRUS A. POINDEXTER ... 665
Respiratory Quotients of Tubercle Bacilli at Low Oxygen Tension. JOSEPH Q. HEPLAR ... 669
Ineffectiveness of Isoniazid and Iproniazid in Therapy of Sarcoidosis. HAROLD L. ISRAEL, MAURICE SONES, AND DICK HARRELL ... 671
Preliminary Note on the Effect of Isoniazid and Iproniazid in Murine Leprosy. E. GRUNBERG AND E. H. TITSWORTH ... 674
Correspondence: Tuberculosis in South America. EMIL BOGEN; Request for Reprints Concerning Stress and the Adaptive Hormones. ALEXANDER HORAVA AND HANS SELYE ... 676
American Trudeau Society:
The Need for Rest Therapy in Connection with Long Courses of Drug Treatment for Pulmonary Tuberculosis. A Statement by the Committee on Therapy ... 679
Report of Panel Discussion on Chemotherapy in Tuberculosis ... 680
Report on Team Projects for the Recovering Tuberculosis Patient in Tuberculosis Hospitals in the United States. HOLLAND HUDSON ... 698
Notes ... 704
Necrology ... 705
Abstracts ... 89

NUMBER 6, JUNE, 1953

Tuberculosis Today and Tomorrow. DAVID T. SMITH ... 707
A Method for Evaluating the Attitudes of Tuberculous Patients. GEORGE CALDEN ... 722
Observations on the Effect of Induced Hyperglycemia on the Glucose Content of the Cerebrospinal Fluid in Patients with Tuberculous Meningitis. JOSÉ E. SIFONTES, R. D. BROOKE WILLIAMS, EDITH M. LINCOLN, AND HELEN CLEMONS ... 732

Pulmonary Function in Pregnancy. II. Comparison of the Effects of Pneumoperitoneum and Pregnancy in Young Women with Functionally Normal Lungs and Serial Observations During Pregnancy and Postpartum Pneumoperitoneum. William E. Patton, Walter H. Abelmann, N. Robert Frank, Theodore Badger, and Edward A. Gaensler ... 755

Pulmonary Function in Pregnancy. III. Serial Observations in Patients with Pulmonary Insufficiency. Edward A. Gaensler, William E. Patton, Jean M. Verstraeten, and Theodore L. Badger ... 779

The Toxicity of Isoniazid for the Rhesus Monkey. L. H. Schmidt, Richard Hoffmann, and Hettie B. Hughes ... 798

***In Vitro* and *in Vivo* Activity of Streptomycin and Isoniazid Singly and in Combination.** Gladys L. Hobby, Tulita F. Lenert, Zina C. Rivoire, Mary Donikian, and Daria Pikula ... 808

A Toxic Lipid Component of the Tubercle Bacillus ("Cord Factor"). II. Occurrence in Chloroform Extracts of Young and Older Bacterial Cultures. Hans Noll and Hubert Bloch ... 828

A Toxic Lipid Component of the Tubercle Bacillus ("Cord Factor"). III. Occurrence and Distribution in Various Bacterial Extracts. J. Asselineau, Hubert Bloch, and E. Lederer ... 853

Case Report:

Caseation Necrosis in Human Brucellosis. Report of a Case. John B. Crow, David M. Tormey, Wallace J. Redner, Jr., and B. H. Sullivan, Jr. ... 859

Editorial: Psychological Aspects of Tuberculosis. Eric D. Wittkower ... 869

Notes:

Viability of Tubercle Bacilli *in Vivo* With and Without Chemotherapy. René J. Dubos ... 874

Isolation of Air-Borne Tubercle Bacilli in a Tuberculosis Hospital. H. Mac Vandiviere, C. Edwin Smith, and E. J. Sunkes ... 878

Books ... 881

Index of Authors ... 883

Index of Subjects ... 889

Index of Abstracts ... 121

VOLUME 68
JULY-DECEMBER, 1953

PUBLISHED MONTHLY
AT MT. ROYAL AND GUILFORD AVENUES, BALTIMORE 2, MD.
BY THE NATIONAL TUBERCULOSIS ASSOCIATION

CONTENTS: ORIGINAL ARTICLES

NUMBER 1, JULY, 1953

Biologic and Epidemiologic Aspects of Tuberculosis. RENÉ J. DUBOS 1

General Population Roentgenographic Surveys: Subsequent Course of Persons Considered to Have Tuberculosis. WENDELL R. AMES AND MILLER H. SCHUCK 9

The Basic Lesion in Chronic Pulmonary Emphysema. DAVID M. SPAIN AND GERALD KAUFMAN 24

Comparative Effects of Corticotropin and Cortisone on Experimental Tuberculosis. HENRY E. WEIMER, RUTH A. BOAK, EMIL BOGEN, HELENE E. DRUSCH, JAMES N. MILLER, JEAN R. MOSHIN, AND CHARLES M. CARPENTER 31

Para-Aminosalicylic Acid in Sputum. Effect on Culture for Tubercle Bacilli. BEN FRUHLINGER AND JOHN BALA 42

A Rapid Method of Screening Antituberculous Agents in the Guinea Pig. SYDNEY D. RUBBO AND BARBARA J. PIERSON 48

Use of the Rabbit in Experimental Tuberculosis. I. A Visual Method of Evaluation of Antituberculous Agents by Serial Chest Roentgenograms. WILLIAM STEENKEN, JR., EMANUEL WOLINSKY, LEONARD J. BRISTOL, AND WILLIAM J. COSTIGAN 65

Effective Therapeutic Dose of Isoniazid for Experimental Tuberculosis of Guinea Pigs. ALFRED G. KARLSON AND WILLIAM H. FELDMAN 75

Detection of Small Numbers of *Mycobacteria* in Sections by Fluorescence Microscopy. DAVID F. GRAY 82

Effect of Time and Temperature on Antigenic Potency of BCG Vaccine. I. Storage at 2° to 4°C. KONRAD BIRKHAUG AND RAFAEL DARRICARRERE. 96

The Use of 4-Amino-4′-B Hydroxyethylaminodiphenyl Sulfone (Hydroxyethyl Sulfone) in Pulmonary Tuberculosis. HOWARD M. PAYNE, ROBERT L. HACKNEY, CHARLES M. DOMON, EDWARD E. MARSHALL, K. ALBERT HARDEN, AND OTIS D. TURNER 103

Studies in the Metabolism of *Mycobacterium* 607. III. The Effect of Various Sources of Nitrogen on Growth, Riboflavin Production, and Synthesis of a Pharmacologically Active Metabolite. Y. T. CHANG AND M. I. SMITH 119

Change in Ability of a Strain of *Mycobacterium Tuberculosis* to Utilize Asparagine as Only Source of Nitrogen for Growth. CHARLES HURWITZ, SOL. S. NELSON, AND SOL ABRAMOWITZ 127

Case Report:

Hepatitis and Hypokalemia in Tuberculosis. HARRY S. ALLEN, JR., EDMUND G. BEACHAM, AND HAROLD W. KESCHNER 136

Notes:

The Surgical Pathology of Isoniazid-Treated Pulmonary Tuberculosis. JOHN DENST 144

American Trudeau Society:
Report of Interim Committee on Diagnostic Standards 150
Notes 153
Obituaries 154
Abstracts 1

NUMBER 2, AUGUST, 1953

X-ray Therapy of Peripheral Tuberculous Lymphadenitis. JOSEPH N. ACETO, KAZUMI KASUGA, AND STEVENS S. SANDERSON 157
The Effect of Testosterone on Patients with Pulmonary Tuberculosis. SAMUEL COHEN, BERDJ HAYRABETIAN, AND ELMER L. SEVRINGHAUS .. 165
The Determinations of Blood Flow Through Nonventilated Portions of the Normal and Diseased Lung. RUSSELL H. WILSON, RICHARD V. EBERT, CRAIG W. BORDEN, ROY T. PEARSON, ROBERT S. JOHNSON, ABRAHAM FALK, AND MARY E. DEMPSEY 177
Synergistic Effects of BCG Vaccine and Hyaluronidase in Guinea Pigs. KONRAD BIRKHAUG 188
Some Pharmacologic Observations on Isoniazid and Iproniazid. M. G. ALLMARK, F. C. LU, ELIZABETH CARMICHAEL, AND A. LAVALLEE 199
Nitrogen Metabolism and Food Intake in Nontuberculous Patients Receiving Isoniazid. WILLIAM W. FALOON 207
Design and Operation of a Laboratory for Experimental Tuberculosis. MORRIS SOLOTOROVSKY, HARRY J. ROBINSON, AND MICHAEL KNIAZUK .. 212
The Selection of a Bovine Strain of *Mycobacterium Tuberculosis* for Studies in Experimental Tuberculosis. G. L. FITE AND E. W. EMMART 220
A Comparative Study of Streptomycin and Dihydrostreptomycin in Pulmonary Tuberculosis. SUMNER S. COHEN, LYNN JOHNSEN, M. R. LICHTENSTEIN, AND WILLIAM J. LYNCH 229
A Comparative Study of Streptomycin and Dihydrostreptomycin in Pulmonary Tuberculosis. STEPHEN C. F. MAHADY, FRANK L. ARMSTRONG, FREDERICK BECK, RALPH HORTON, AND N. STANLEY LINCOLN 238
Case Reports:
Drug Fever Due to Administration of Isoniazid. ALEXANDER KRASNITZ .. 249
Acute Hematogenous Tuberculosis Secondary to Pregnancy in a Patient with Tuberculous Salpingitis. Case Report and Review. HOWARD G. TURNER, JR. 253
Editorial: Cooperative Clinical Research in Tuberculosis. H. CORWIN HINSHAW 263
Notes:
Control Study of Comparative Efficacy of Isoniazid, Streptomycin-Isoniazid, and Streptomycin–Para-Aminosalicylic Acid in Pulmonary Tuberculosis Therapy. IV. Report on Forty-Week Observations on 583 Patients with Streptomycin-Susceptible Infections. FRANK W. MOUNT *et al* 264
Side Effects Accompanying Use of Iproniazid. JOHN B. O'CONNOR *et al* 270

The Effect of Ketone Compounds on the Inhibition of Growth of Tubercle Bacilli by Isoniazid *in Vitro*. WERNER B. SCHAEFFER 273
Antagonism of Isoniazid and Streptomycin in Experimental Infection of Mice with *M. Tuberculosis* H37Rv. E. GRUNBERG AND R. J. SCHNITZER 277
Conditional Antagonism Between Isoniazid and Other Antibacterial Agents. WACLAW SZYBALSKI AND VERNON BRYSON 280
The Inactivation of Isoniazid by Dubos Medium. F. E. PANSY *et al.* 284
Isoniazid Serum Concentrations and Total Hemoglobin and Methemoglobin Values in Tuberculous Patients on Two Dosage Regimens of Isoniazid Therapy. HARRIS J. MARK *et al.* 286
Virulence in Guinea Pigs of Isoniazid-Resistant Cultures Isolated from Clinical Specimens. LENORE R. PEIZER *et al.* 290
The Control of Experimental Mouse Tuberculosis by the Intermittent Administration of Streptomycin, Viomycin, Isoniazid, and Streptomycylidene Isonicotinyl Hydrazine. GLADYS L. HOBBY AND TULITA F. LENERT 292
Correspondence: Iodine in Leprosy. H. W. WADE; **Toxicity of Isoniazid.** J. PARK BIEHL AND JOHN SKAVLEM 295
Books 298
American Trudeau Society:
The Toxicity of Isoniazid. A Report of the Committee on Therapy 302
Notes 306
Abstracts 29

NUMBER 3, SEPTEMBER, 1953

Occurrence of Histoplasmosis in Epidemics. Etiologic Studies. MICHAEL L. FURCOLOW AND J. THOMAS GRAYSTON 307
The Growth of Mammalian Tubercle Bacilli in Tween-Albumin Liquid Medium. I. Observations on the Proportion of Viable Organisms, the Cytology, and the Virulence of Bacilli at Different Stages of Growth of Strain H37Rv. FRANK FENNER AND RONALD H. LEACH 321
The Growth of Mammalian Tubercle Bacilli in Tween-Albumin Liquid Medium. II. Observations on the Proportion of Viable Organisms, the Cytology, the Virulence, and the Antigenicity at Different Stages of Growth of BCG. FRANK FENNER AND RONALD H. LEACH 342
Electrophoretic Studies of the Serum Proteins in Tuberculosis. R. W. BALDWIN AND C. N. ILAND 372
Acute Tuberculous Pneumonia in the Negro. ARTHUR A. CALIX, MORTON M. ZISKIND, ALAN J. LEONARD, HARRY S. ANDERSON, JEROME BLOCK, AND SYDNEY JACOBS 382
A Study of Irregular Discharges in a Veterans Administration Tuberculosis Hospital. JOSEPH F. TEDESCO 393
A Pharmacologic Trial of Para-Ethylsulfonyl Benzaldehyde Thiosemicarbazone (Berculon B) in Humans. J. D. H. BANKIER, R. S. KENNEDY, A. W. LEES, H. M. MACLEOD, AND N. W. HORNE 400

Isoniazid in Combined Chemotherapy of Experimental Tuberculosis in Mice. CHARLES O. SIEBENMANN 411
A Study of the Effect of Alcohols on Tubercle Bacilli and Other Bacteria in Sputum. MARTIN FROBISHER, JR., AND LUCILLE SOMMERMEYER 419
Studies on the Fractionation of Tuberculin and Johnin. I. Fractionation of Tuberculin Proteins. MERRIAM A. JONES, AUBREY B. LARSEN, THOMAS H. VARDAMAN, AND LOUIS A. BAISDEN 425
Studies on the Fractionation of Tuberculin and Johnin. II. Extraction of Tuberculin Proteins with Phenol. MERRIAM A. JONES, AUBREY B. LARSEN, THOMAS H. VARDAMAN, AND LOUIS A. BAISDEN 439
Studies on the Fractionation of Tuberculin and Johnin. III. Fractionation of Johnin Proteins. MERRIAM A. JONES, AUBREY B. LARSEN, THOMAS H. VARDAMAN, AND LOUIS A. BAISDEN 444
Effect of BCG Vaccination on Mice Infected with Tuberculosis. FLORENCE K. FITZPATRICK 451
Case Reports:
Aplastic Anemia Following the Use of Streptomycin and Para-Aminosalicylic Acid. HENRY W. WALTERS 455
Peripheral Neuropathy in Tuberculosis Patients Treated with Isoniazid. HAROLD N. LUBING 458

INDEX OF SUBJECTS

Alcohol effect on tubercle bacilli in sputum, 419

AMERICAN TRUDEAU SOCIETY
- Award of the Trudeau Medal for 1953, 808
- Notes, 153, 306, 502, 654, 837, 972
- Obituaries, 154
- Panel discussions:
  - Present concepts of antimicrobial therapy in pulmonary tuberculosis, 819
  - Survival and revival of tubercle bacilli in healed tuberculous lesions, 477
  - Therapy of miliary and meningeal tuberculosis, 636
  - Why give pneumoperitoneum or pneumothorax, 954
- Report of the Committee on Medical Research, 1952–1953, 812
- Report of the Committee on Therapy to the Committee on Medical Research, May 16, 1953, 946
- Report of the Fellowship Board of the Committee on Medical Research, 1952–1953, 816
- Report of Interim Committee on Diagnostic Standards, 150
- Report of the Laboratory Subcommittee to the Committee on Medical Research, 951
- Report of the Ninth Pembine Therapy Conference, Michigan, Wisconsin, and Minnesota, 496
- Toxicity of isoniazid. Report of the Committee on Therapy, 302

4-Amino-4′ B hydroxyethylaminodiphenyl sulfone. *See* Hydroxyethyl sulfone

Anemia, aplastic, following use of streptomycin and para-aminosalicylic acid (case reports), 455

Antibacterial agents and isoniazid, antagonism between (notes), 280

Antituberculous drugs. *See* Chemotherapy; Drug; individual names of drugs, e.g., Isoniazid, Streptomycin, Thiosemicarbazone

Aplastic anemia. *See* Anemia

Asparagine utilized by *M. tuberculosis* for growth, 127

Bacillus
- Calmette-Guerin. *See* BCG
- tubercle. *See* Tubercle bacillus

BCG
- present status of studies (notes), 462
- vaccination
  - correlation of tuberculin reaction with pulmonary lesions in persons with and without, 713
  - effect of, on mice infected with tuberculosis, 451
  - pulmonary lesions in persons with and without, 695
- vaccine
  - effect of age and temperature on, 96
  - and hyaluronidase in guinea pigs, 188

Berculon B. *See* Thiosemicarbazone

Beryllium, establishment of registry of cases (correspondence), 941

Biology of tuberculosis, 1

Biopsy, scalene node, 505

Blastomycosis, systemic, and tuberculosis, pulmonary, chemotherapy in (case report), 615

Blood
- *See also* Serology; Serum
- flow through nonventilated portions of lung, 177

BOOKS
- Bacteriostatic Activity of 3500 Organic Compounds for *Mycobacterium Tuberculosis* var. *Hominis*. By GUY P. YOUMANS, LEONARD DOUB, AND ANNE S. YOUMANS, 943
- BCG Vaccination. Studies by the WHO Tuberculosis Research Office, Copenhagen. By LYDIA B. EDWARDS AND CARROLL E. PALMER, 476
- Chronic Pulmonary Emphysema: Physiopathology and Treatment. By MAURICE S. SEGAL, 804
- Famine Disease in German Concentration Camps, Complications and Sequels with Special Reference to Tuberculosis, Mental Disorders, and Social Consequences. By HELWEG-LARSEN, HENRIK HOFFMEYER, JORGEN KIELER, EIGIL HESS THAYSEN, JORN HESS THAYSEN, PAUL THYGESEN, AND MUNKE HERTEL WULFF, 472

Literature on Streptomycin 1944–1952. By SELMAN A. WAKSMAN, 300
Nature and Significance of the Antibody Response. By A. M. PAPPENHEIMER, JR., 298
Principles, Problems, and Practices of Anesthesia for Thoracic Surgery. By HENRY K. BEECHER, 299
Rehabilitation of the Physically Handicapped. By HENRY H. KESSLER, 805
Sectional Radiography of the Chest. By IRVING J. KANE, 944
This is Your World. By HARRY A. WILMER, 299
Treatment of Respiratory Emergencies Including Bulbar Poliomyelitis. By THOMAS C. GALLOWAY, 943
Tubercle Bacillus and Laboratory Methods in Tuberculosis. By M. A. SOLTYS, C. A. ST. HILL, AND I. ANSELL, 475
White Plague. By RENÉ AND JEAN DUBOS, 803
X-ray Diagnosis of Chest Diseases. By COLEMAN B. RABIN, 298
Bronchography with water-soluble contrast medium, 760
BRONCHUS (i), disease of, in lungs resected for pulmonary tuberculosis, 657

Cell, lysis, in tuberculin sensitivity, 746
Chemotherapy
See also Drug; individual names of drugs, e.g., Isoniazid, Streptomycin, Viomycin
effectiveness shown by use of guinea pig omentum, 583
of experimental tuberculosis in mice, isoniazid in, 411
of miliary and meningeal tuberculosis in the adult, 912
roentgenographic spread of pulmonary tuberculosis during sanatorium residence before, 863
CORRESPONDENCE
Abortive tuberculosis in guinea pigs induced by pathologic material containing young tubercle bacilli, 467
Establishment of a berryllium case registry, 941
Iodine in leprosy, 295
Irregular discharges, 634
Procedure for negative cultures for tubercle bacilli, 470
Toxicity of isoniazid, 296
Toxicity of isoniazid for the monkey, 467
Treatment of tuberculous lymphadenitis with sodium salicylate, 940
Corticotropin. *See* Hormone
Cortisone. *See* Hormone

Dihydrostreptomycin in pulmonary tuberculosis, compared with streptomycin, 229, 238
Discharge
irregular, from a tuberculosis hospital, 393 (correspondence), 634
Drug
antituberculous
roentgenography as index of effect of, 65
screening of, in guinea pigs, 48
fever due to isoniazid (case report), 249
Dubos medium. *See* Medium

EDITORIALS
Cooperative clinical research in tuberculosis, 263
Problem of tuberculosis in psychotics, 782
Relationship of the immunity mechanism to pathologic changes, clinical symptoms, and therapeutic measures in tuberculosis, 933

mediastinal, after pneumoperitoneum (case report), 775
pulmonary, chronic, basic lesion in, 24
Epidemiology of tuberculosis, 1

Fibrosis, diffuse, interstitial, of lungs (case report), 603
Fistula, tuberculous, isoniazid and PAS in, 535
Fluorescence microscopy in detection of *Mycobacteria* in tissue sections, 82
Food intake in nontuberculous patients receiving isoniazid, 207
Function, renal, viomycin effect on, 541

Glycoprotein of serum in tuberculous guinea pigs, 594
Guinea pig
BCG vaccine and hyaluronidase in, 188
omentum as index in chemotherapy, 583
tuberculosis

abortive, induced in, by pathologic material containing young tubercle bacilli (correspondence), 467
experimental antituberculous drugs screening in, 48
isoniazid in, 75
and streptomycin in, 575
serum glycoprotein in, 594
virulence of isoniazid-resistant cultures in (notes), 290

Hawaii, tuberculosis in, 839
Heart involvement in miliary tuberculosis, (case report), 771
Hemagglutination reaction, antiglobulin modification of, 739
Hemoglobin and methemoglobin values in tuberculous patients on isoniazid therapy (notes), 286
Hepatitis and hypokalemia in tuberculosis (case report), 136
Histoplasmosis epidemics, 307
Hormone
corticotropin in tuberculosis, experimental, compared with cortisone, 31
cortisone in tuberculosis, experimental, compared with corticotropin, 31
Hyaluronidase and BCG vaccine in guinea pigs, 188
Hydroxyethyl sulfone in tuberculosis, pulmonary, 103
Hypokalemia and hepatitis in tuberculosis (case report), 136

Immunity mechanism, relationship to pathologic changes, clinical symptoms, and therapeutic measures in tuberculosis (editorial), 933
Iodine in leprosy (correspondence), 295
Iproniazid
pharmacology of, 199
side effects of (notes), 270
Isoniazid
antagonism, 280
by antibacterial agents (notes), 280
by certain metabolites (notes), 938
in combined chemotherapy of mice, 411
compared with streptomycin-isoniazid and streptomycin-PAS in pulmonary tuberculosis (notes), 264
-dependent strains of *Mycobacterium ranae* (notes), 631
effect on nitrogen metabolism and food intake in nontuberculous patients, 207
emotional effect of, 523
fever (case report), 249
inactivation by Dubos medium (notes), 284
inhibitory effect on growth of tubercle bacilli antagonized by ketone compounds (notes), 273
and PAS in tuberculous sinuses and fistulas, 535
peripheral neuropathy in patients treated with (case reports), 458
pharmacology of, 199
-resistant cultures from clinical specimens virulence of, in guinea pigs (notes), 290
-resistant tubercle bacilli, virulence of, 548
serum concentrations in tuberculous patients (notes), 286
and streptomycin
antagonism in mice infected with *M. tuberculosis* H37Rv (notes), 277
in tuberculosis, experimental, in guinea pigs, 575
viomycin, and streptomycylidene isonicotinyl hydrazine in experimental mouse tuberculosis (notes), 292
surgical pathology of pulmonary tuberculosis treated by (notes), 144
susceptibility and pathogenicity of tubercle bacilli, 734
toxicity (correspondence), 296
for monkeys (correspondence), 470
in tuberculosis, experimental, in guinea pigs, 75
in tuberculous sinuses and fistulas, 535

Johnin, fractionation of, 444

Ketone compounds, effect on inhibition of growth of tubercle bacilli by isoniazid *in vitro* (notes), 273
Kidney, viomycin effect on function, 541

Laboratory design and operation for experimental tuberculosis, 212
Lavage
gastric, compared with tracheal in culturing *M. tuberculosis*, 926
tracheal, compared with gastric in culturing *M. tuberculosis*, 926
Leprosy, iodine in (correspondence), 295
Lesion
pulmonary
in BCG-vaccinated and unvaccinated persons, 695
correlation with tuberculin reaction in

BCG-vaccinated and control persons, 713
in emphysema, chronic, 24
resected from patients treated with streptomycin and PAS, cultural properties of *M. tuberculosis* in, 727
Lung
diseased, blood flow through nonventilated portions, 177
fibrosis, diffuse interstitial, of (case report), 603
normal, blood flow through nonventilated portions, 177
resected for pulmonary tuberculosis, bronchial disease in, 657
Lymphadenitis
tuberculous
peripheral, X-ray therapy for, 157
sodium salicylate in (correspondence), 940
Lysis, cellular, in tuberculin sensitivity, 746
Lysozyme action on *Mycobacteria*, 564

Mediastinum, emphysema of, after pneumoperitoneum (case report), 775
Medium
contrast, water-soluble, in bronchography, 760
Dubos, inactivating isoniazid (notes), 284
Metabolism
nitrogen, in nontuberculous patients receiving isoniazid, 207
of *Mycobacterium* 607, effect of nitrogen on growth, riboflavin production, and synthesis of a pharmacologically active metabolite, 119
Methemoglobin and hemoglobin values in tuberculous patients on isoniazid therapy (notes), 286
Mice
tuberculosis, experimental, of
antagonism of isoniazid and streptomycin in (notes), 277
controlled with intermittent streptomycin, viomycin, isoniazid, and streptomycylidene isonicotinyl hydrazine (notes), 292
isoniazid in combined chemotherapy of, 411
BCG in, 451
tuberculin shock in (notes), 629
Monkey
isoniazid toxicity for (correspondence), 470

Mycobacterium (*a*)
fluorescence microscopy detection of, in tissue sections, 82
lysozyme action on, 564
nonpathogenic, as source of error in diagnosis and drug-susceptibility tests, 557
ranae, isoniazid-dependent strains of (notes), 631
607, metabolism of, effect of nitrogen on growth, riboflavin production, and synthesis of a pharmacologically active metabolite, 119
tuberculosis
bovine, in experimental tuberculosis, 220
cultural properties of, in resected pulmonary lesions of patients treated with streptomycin and PAS, 727
culture of, comparison of tracheal and gastric lavage in, 926
utilization of asparagine as source of nitrogen for growth, 127
virulence, oxidation-reduction dyes in determination of (notes), 786

Negro, tuberculous pneumonia in, 382
Neotetrazolium chloride in tubercle bacilli cultures (notes), 625
Neuropathy, peripheral, in tuberculosis patients treated with isoniazid, (case reports), 458
Nitrogen
asparagine as source of, for growth of *M. tuberculosis*, 127
effect on growth, riboflavin production, and synthesis of a pharmacologically active metabolite, 119
metabolism in nontuberculous patients receiving isoniazid, 207
Node, scalene, biopsy of, 505
Notes
Antagonism of isoniazid by certain metabolites, 938
Antagonism of isoniazid and streptomycin in experimental infection of mice with *M. tuberculosis* H37Rv, 277
Clinical trial of para-isobutoxybenzaldehyde thiosemicarbazone in eight cases of tuberculosis, 799
Conditional antagonism between isoniazid and other antibacterial agents, 280
Control of experimental mouse tuberculosis by the intermittent administration of streptomycin, viomycin, isoniazid,

and streptomycylidene isonicotinyl hydrazine, 292
Control study of comparative efficacy of isoniazid, streptomycin-isoniazid, and streptomycin–para-aminosalicylic acid in pulmonary tuberculosis therapy: IV. Report on forty-week observations on 583 patients with streptomycin-susceptible infections, 264
Effect of ketone compounds by the inhibition of growth of tubercle bacilli by isoniazid *in vitro*, 273
Effect of para-aminosalicylic acid on silicate restorations (fillings) of teeth, 622
Failure of para-isobutoxybenzaldehyde thiosemicarbazone as an antituberculous drug in man, 791
Inactivation of isoniazid by Dubos medium, 284
Isoniazid-dependent strains of *Mycobacterium ranae*, 631
Isoniazid serum concentrations and total hemoglobin and methemoglobin values in tuberculous patients on two dosage regimens of isoniazid therapy, 286
New multipurpose magnifying X-ray viewer, 788
Para-isobutoxybenzaldehyde thiosemicarbazone in pulmonary tuberculosis, 796
Para-isobutoxybenzaldehyde thiosemicarbazone in the treatment of pulmonary tuberculosis, 794
Present status of BCG studies, 462
Results with oxidation-reduction dyes in the determination of virulence of *Mycobacteria*, 786
Side effects accompanying use of iproniazid, 270
Surgical pathology of isoniazid-treated pulmonary tuberculosis, 144
Tuberculin shock in mice infected with tubercle bacilli, 629
Use of neotetrazolium chloride in cultures of tubercle bacilli, 625
Virulence in guinea pigs of isoniazid-resistant cultures isolated from clinical specimens: A preliminary report, 290

Omentum, guinea pig, as index of antimicrobial effectiveness, 583
Oxidation-reduction dyes to determine virulence of *Mycobacteria* (notes), 786

Para-aminosalicylic acid
  effect on silicate restorations (fillings) of teeth (notes), 622
  and isoniazid in tuberculous sinuses and fistulas, 535
  in sputum, effect on culture of tubercle bacilli, 42
  and streptomycin
    aplastic anemia following use of (case reports), 455
    compared with isoniazid and streptomycin-isoniazid in pulmonary tuberculosis (notes), 264
    and stilbamidine in tuberculosis, pulmonary, and systemic blastomycosis (case report), 615
Para-ethylsulfonyl benzaldehyde thiosemicarbazone. *See* Thiosemicarbazone
Para-isobutoxybenzaldehyde. *See* Thiosemicarbazone
PAS. *See* Para-aminosalicylic acid
Plasma
  See also Blood
  electrolytes, effect of viomycin on, 541
Plombage, Lucite ball, extraperiosteal, 902
Pneumonia, tuberculous, in Negroes, 382
Pneumoperitoneum, mediastinal emphysema after (case report), 775
Pregnancy in patient with tuberculous salpingitis causing acute hematogenous tuberculosis (case report), 253
Protein
  serum in tuberculosis, electrophoretic studies of, 372
  tuberculin and johnin, fractionation of, 425, 439, 444
Psychotics, tuberculosis in (editorial), 782
Pulmonary emphysema. *See* Emphysema
  tuberculosis. *See* Tuberculosis

Rabbit, tuberculosis, experimental, roentgenography as index of drug effect in, 65
Renal function. *See* Function
Research in tuberculosis, cooperative clinical (editorial), 263
Resection
  pulmonary
    bronchial disease in specimens, 657
    in tuberculosis, bilateral, 885
Roentgen therapy of lymphadenitis, tuberculous, peripheral, 157
Roentgenography
  as index of drug effect in rabbits, 65

magnifying, multipurpose viewer for films (notes), 788
mass, subsequent course of persons considered to have tuberculosis, 9

Salpingitis, tuberculous, in pregnant patient causing acute hematogenous tuberculosis (case report), 253
Scalene node. *See* Node
Serology of tuberculosis, pulmonary, 739
Serum
See also Blood; Serology
concentrations
of glycoprotein in tuberculous guinea pigs, 594
of isoniazid in tuberculous patients on isoniazid therapy (notes), 286
proteins in tuberculosis, electrophoretic studies of, 372
Silicate restorations (fillings) in teeth, effect of PAS on (notes), 622
Sinus, tuberculous, isoniazid and PAS in, 535
Sodium salicylate in lymphadenitis, tuberculous (correspondence), 940
Sputum
para-aminosalicylic acid in, effect on culture of tubercle bacilli, 42
tubercle bacilli in, effect of alcohols on, 419
Stilbamidine and PAS and streptomycin in tuberculosis, pulmonary, and systemic blastomycosis (case report), 615
Streptomycin
and isoniazid in tuberculosis
experimental
in guinea pigs, 575
of mice, antagonism of (notes), 277
pulmonary, compared with isoniazid and streptomycin-PAS (notes), 264
and para-aminosalicylic acid
aplastic anemia following use of (case reports), 455
cultural properties of *M. tuberculosis* in lesions resected from patients treated with, 727
in tuberculosis, pulmonary, compared with isoniazid and streptomycin-isoniazid (notes), 264
and stilbamidine in tuberculosis, pulmonary, and systemic blastomycosis (case report), 615
in tuberculosis, pulmonary, compared with dihydrostreptomycin, 229, 238
and viomycin, isoniazid, and streptomycylidene isonicotinyl hydrazine in experimental mouse tuberculosis (notes), 292
Streptomycylidene isonicotinyl hydrazine and streptomycin, viomycin, and isoniazid in experimental mouse tuberculosis (notes), 292
Surgery statistics, total, in tuberculosis, pulmonary, 874

Teeth restorations (fillings), effect of PAS on (notes), 622
Testosterone for pulmonary tuberculosis, 165
Thiosemicarbazone
para-ethylsulfonyl benzaldehyde (Berculon B) in humans, 400
para-isobutoxybenzaldehyde, failure as antituberculous drug in man (notes), 791, 794, 796, 799
Tubercle bacilli
cultures
negative, procedure for (correspondence), 470
neotetrazolium chloride in (notes), 625
growth
inhibited by isoniazid antagonized by ketone compounds (notes), 273
in Tween-albumin medium
BCG, 342
H37Rv, 321
isoniazid-resistant, virulence of, 548
pathogenicity of, and isoniazid susceptibility, 734
in sputum, effect of alcohols on, 419
Tuberculin
fractionation of, 425, 439
reaction, correlation with pulmonary lesions in BCG-vaccinated and control persons, 713
sensitivity
cellular lysis in, 746
nonspecific, 678
shock in tuberculous mice (notes), 629
Tuberculosis
abortive, in guinea pigs, induced by pathologic material containing young tubercle bacilli (correspondence), 467
biologic aspects of, 1
contact, tuberculin sensitivity in, 678
discharges, irregular, from a hospital, 393
epidemiologic aspects of, 1

experimental
antagonism of isoniazid and streptomycin in mice infected with *M. tuberculosis* H37Rv (notes), 277
BCG effect on mice, 451
BCG vaccine and hyaluronidase in guinea pigs, 188
bovine strains in, 220
corticotropin and cortisone in, 31
drug screening in guinea pigs, 48
glycoprotein serum concentrations in guinea pigs, 594
guinea pig omentum as index of chemotherapy in, 583
isoniazid in combined chemotherapy of mice, 411
isoniazid in guinea pigs, 75
isoniazid and streptomycin in guinea pigs, 575
laboratory operation and design for, 212
roentgenography as index of drug effect in rabbits, 65
streptomycin, viomycin, isoniazid, and streptomycylidene isonicotinyl hydrazine in mice (notes), 292
tuberculin shock in mice (notes), 629
virulence in guinea pigs of isoniazid-resistant cultures (notes), 290
in Hawaii, 839
hematogenous, acute, in pregnancy in patient with tuberculous salpingitis (case report), 253
hepatitis and hypokalemia in (case report), 136
isoniazid serum concentrations and hemoglobin and methemoglobin values in (notes), 286
meningeal, in adults, chemotherapy of, 912
miliary
in adults, chemotherapy of, 912
cardiac involvement in (case report), 771
in pregnancy (case report), 253
protein serum concentrations in, electrophoretic studies of, 372
in psychotics (editorial), 782
pulmonary
and blastomycosis, systemic chemotherapy in (case report), 615
bronchial disease in lungs resected for, 657
hydroxyethyl sulfone in, 103
isoniazid peripheral neuropathy in (case reports), 458
isoniazid-treated, surgical pathology of (notes), 144
para-isobutoxybenzaldehyde thiosemicarbazone in, failure of (notes), 791, 794, 796, 799
plombage, Lucite, extraperiosteal, in, 902
resection, bilateral, 885
roentgenographic spread of, during sanatorium residence before use of prolonged chemotherapy, 863
serology of, 739
streptomycin and dihydrostreptomycin in, comparison of, 229, 238
surgical statistics, total, in, 874
testosterone for, 165
relationship of immunity mechanism to pathologic changes, clinical symptoms, and therapeutic measures in (editorial), 933
research, cooperative clinical (editorial), 263
survey-detected, ultimate fate of, 9
Tuberculous fistula. *See* Fistula
lymphadenitis. *See* Lymphadenitis
pneumonia. *See* Pneumonia
salpingitis. *See* Salpingitis
sinus. *See* Sinus

Umbradil in bronchography, 760

Vaccine, BCG, effect of age and temperature on, 96
Viomycin
effect on plasma electrolytes, 541
effect on renal function, 541
and streptomycin, isoniazid, and streptomycylidene isonicotinyl hydrazine in experimental mouse tuberculosis (notes), 292

X-ray
film. *See* Roentgenogram
therapy of lymphadenitis, tuberculous, peripheral, 157

INDEX OF ABSTRACTS

AUTHORS

Abelardo Saenz, (h), Pharyngo-laryngeal swabs, 44

Abuchala, D. *See* Tavares de Lima Filho, M., and others

Abunahman, A. J., and J. B. Risi. Tuberculin positivity among lepers' children, 92

Adams, W. E., and B. C. Charbon. Prevention of pulmonary overdistention, 26

Adelman, B. P. Radiation therapy for bronchogenic carcinoma, 13

Adie, G. C., W. G. Childress, H. J. Brezing, and D. Taylor. Late results of thoracoplasty, 47

Ahern, J. J., and W. M. M. Kirby. Aureomycin with penicillin for pneumonia, 110

Albert C. *See* Daz, C. J., and others

Alexander, J. *See* Lees, W. M., and others

Alexander, R. S., and M. M. Reydman. Oximeter test of pulmonary function, 58

Alley, R. D. *See* Shedd, D. P., and others

Almeida, W. F. *See* Cardoso, D. M., and others

Alvares, D., and F. Serra. Streptomycin for pulmonary tuberculosis, 82

Amarla, Jandira P. do. *See* Cardoso, D. M., and others

Andersen, H. A. *See* Olsen, A. M., and others

Anderson, A. E., and M. Raphael. Pleuropulmonary tularemia, 97

Anderson, R. L. Esophageal rupture, 79

Andrews, G. A., S. W. Root, H. D. Kerman, and R. R. Bigelow. Intrapleural and intraperitoneal radioactive gold, 106

Angulo, A. S. *See* Bailey, C. P., and others

Antonius, N. *See* Bailey, C. P., and others

Arellano, C. *See* García Rosell, O., and others

Arey, J. B., and J. Dent. Causes of fetal and neonatal death, 32

Aronstam, E. M., C. H. Schmidt, and E. Jenkins. Body fluids and electrolytes during thoracic surgery, 58

Arredondo, J. *See* García Rosell, O., and others

Arriola, H. *See* García Rosell, O., and others

Auerbach, O. *See* Stemmermann, G. N., and others

Aufdermaur, M. *See* Rüttner, J. R., and others

Aun, J. N. *See* Rosemberg, J., and others

Aves, F. H., G. Desforges, and J. W. Strieder. Mercury-bag for passing esophageal string, 53

Axén, O. *See* Wulff, H. B., and others

Axler, M. M., and R. L. Rehermann. Partial eventration of right diaphragm, 106

Babeau, P. *See* Mande, R., and others

Bachman, A. L., W. R. Hewitt, and H. C. Beekley. Bronchiectasis, 100

Bahnson, H. T. *See* Raviteh, M. M., and others

Bailey, C. P., R. C. Truex, A. S. Angulo, G. D. Geckeler, W. Likoff, N. Antonius, and W. B. Neptune. Restoration of the coronary circulation, 57

——. *See also* Glover, R. B., and others

Balcom, D. *See* Freedlander, B. L., and others

Baldeón, P. *See* García Rosell, O., and others

Banks, H. *See* Frank, H. A., and others

Barach, A. L., H. A. Bickerman, and G. J. Beck. Antibiotics for respiratory infections, 25

Barrantes, V. L. *See* Daz, C. J., and others

Baskett, J. *See* Goldman, L., and others

Bass, H. E., and M. J. Small. Spontaneous fracture of sternum, 11

Baudot, J., Delande, Moreau, and Serena. Isoniazid in guinea pigs, 61

Baumgarten, W., Jr. *See* Rosecan, M., and others

Bean, J. W. Intestine and respiration, 87

——, and P. C. Johnson. Lung damage by oxygen, 87

——, and C. W. Smith. Pulmonary damage by oxygen, 114

Beck, G. J. *See* Barach, A. L., and others

Becker, B. B. *See* Murphy, J. D., and others

Beekley, H. C. *See* Bachman, A. L., and others

Bell, W. H. *See* Bracken, J. T. Jr., and others

Benda, R., and E. Orinstein. Humoral immunity to tuberculosis, 26

Benjamin, B. *See* Nash, F. A., and others

Beno, T. J., and Weisel, W. Spontaneous contralateral pneumothorax complicating thoracic surgery, 16

Benshoff, A. M. *See* Heller, E. L., and others

Bérard, J., Ode, and Moulin. Collapse therapy in older patients, 6

——. *See also* Santy and others

Bergh, N. P. *See* Wulff, H. B., and others

Bergmann, M., and E. A. Graham. Severe irradiation damage of lung, 59

Berman, J. K., P. S. Test, and B. A. McArt. Congenital esophagobronchial fistula, 51
Bernou, A., J. Tricoire, and G. Blandin. Pneumothorax empyema, 7
Bernstein, C. *See* Ettinger, A., and others
Bickerman, H. A. *See* Barach, A. L., and others
Bigelow, R. R. *See* Andrews, G. A., and others
Bigelow, W. G., and J. E. McBirnie. Hypothermia for intracardiac surgery, 115
Biörck, G. *See* Wulff, H. B., and others
Birnbaum, G. L. Cardiac defibrillator, 20
Birsner, J. W. *See* Dykes, J., and others
Bjork, V. O. Circulatory arrest, 35
——, E. Carlens, and C. Crafoord. Open closure of bronchus with Carlens catheter, 17
Black, G. A. *See* Lapp, A. D., and others
Blaha, H., and H. Wörn. Streptokinase for hemothorax, 16
Blandin, G. *See* Bernou, A., and others
Bloch, H., and H. Noll. Altering virulence of tubercle bacilli, 43
Boettner, J. F. *See* Janovsky, R. C., and others
Bonilla, S. *See* García Rosell, O., and others
Bovet, P. *See* Rüttner, J. R., and others
Boyden, E. A. Right upper lobe anomalies, 11
Boyer, R. C. Bronchography in lobar collapse, 41
Bracher, A. N., and A. R. Koontz. Bronchogenic cyst, 77
Bracken, J. T., Jr., J. M. Miller, and W. H. Bell. Small intestine in tuberculous peritonitis, 5
Brandi, R. *See* Rosemberg, J., and others
Bresnick, E. *See* Herschfus, J. A., and others
Brezing, H. J. *See* Adie, G. C., and others
Brindley, G. V., Jr. Bronchogenic carcinoma simulating benign disease, 104
Bringhurst, L. S. *See* Gershon-Cohen, J., and others
Brook, R. *See* Gordon, J., and others
Bruck, H. Congenital lung anomalies, 108
Bruck, W. Aberrant lung lobe, 107
Brueck, J. W., and G. J. Buddingh. Rapid demonstration of *M. tuberculosis* in egg-yolk sac, 62
Brun, J., and L. F. Perrin. Band-like infiltrates, 29
Buddingh, G. J., and J. W. Bruech. Rapid demonstration of *M. tuberculosis* in egg-yolk sac, 62
Bünger, P., A. Lass, and G. Müller. Isoniazid in cerebrospinal fluid, 22
Bull, W. F., and W. E. Dye. Plasma levels of viomycin, 62
Burkey, J. N. *See* Keating, D. R., and others
Burne, J. C. Tuberculous salpingitis, 95
